

National Centre for Research Methods

Research Methods Training & Events February - May 2011

February 2011

Panel Data Analysis

3-4 February 2011
University of Southampton

Methods in Dialogue: Researching Diversity

9 February 2011
Manchester University

Data Mining Techniques

9-10 February 2011
Lancaster University

Methods for Missing Data: Multiple Imputation & Inverse Probability Weighting

9-11 February 2011
University of Southampton

Introduction to Bayesian Analysis using WinBUGS/OpenBUGS

16 February 2011
University of Manchester

Metaphor Analysis

17 February 2011
University of Manchester

Bayesian Hierarchical Modelling using WinBUGS/OpenBUGS

17-18 February 2011
University of Manchester

Introductory Course on Agent-Based Modelling

22-23 February 2011
University of Surrey

Using STATA

23-24 February 2011
Lancaster University

March 2011

Software Planning Seminar (no fee)

4 March 2011
University of Hertfordshire

Geographical Visualisation

9 March 2011
Manchester University

Methods in Dialogue – Researching Mobilities

9 March 2011
University of Manchester

Intermediate SPSS for Windows

9-10 March 2011
Lancaster University

Questionnaire Design

10-11 March 2011
Manchester University

Developments in the analysis of qualitative data (different fees apply)

16 March 2011
Nuffield Foundation, London

Doing Mixed Methods Research

18 March 2011
University of Manchester

DRS/QUIC Seminar

23 March 2011
Keble College, Oxford

Starting Structural Equation Modelling

23-24 March 2011
Lancaster University

Longitudinal Data Linkage

28-29 March 2011
Institute of Education, London

Methods for Missing Data

29-30 March 2011
Lancaster University

Essentials of Survey Design and Implementation

30 March-1 April 2011
Cardiff University

QUIC developers' seminar (no fee)

31 March 2011
University of Surrey

April 2011

Geo-referencing Seminar (no fee)

6 April 2011
University of Surrey

Stata for Beginners

6 April 2011
Institute of Education, London

Collaborative Methods in Community Research (different fees apply)

11 April 2011
University of Nottingham

Community re-studies (different fees apply)

12 April 2011
University of Nottingham

Regression Methods

12-14 April 2011
University of Southampton

Longitudinal Data Analysis

13 - 15 April 2011
Institute of Education, London

May 2011

QUIC conference: Harnessing technology for methodological purposes

4-5 May 2011
University of Surrey

Multilevel modelling: methodology and application (different fees apply)

11 May 2011
Nuffield Foundation, London

Introduction to Agent-Based Modelling

11-12 May 2011
University of Surrey

Survey Data Analysis 1: Introducing Descriptive and Inferential Statistics

17-19 May 2011
University of Southampton

Sensory Ethnography

18 May 2011
Loughborough University

Quantitative Criminology: Methods, Data and Models

18-19 May 2011
Lancaster University

Registrations: £30 per day to UK postgraduate students, £60 per day to staff of UK Higher Educational Institutions, £220 per day to all others. For further details and enrolment information see NCRM website <http://www.ncrm.ac.uk/training>

About NCRM: National Centre for Research Methods is a £12M investment by the Economic and Social Research Council (ESRC). NCRM forms a part of ESRC's strategy to improve the standards of research methods across the UK social science community.
